

Unit 1: Biological Approach

METHODOLOGY

Correlational Research

CAT/PET/fMRI scans

Twin Studies

Adoption

Levels of data

Mann Whitney U

SRCC

Wilcoxon

Chi Squared

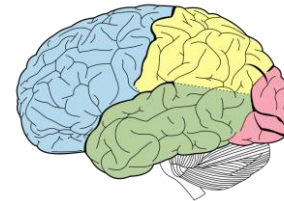

Experimental Designs

Sampling Strategies

Hypotheses

Key Question: What are the implications for society if aggression is caused by nature not nurture?

WHAT DOES BIOLOGICAL PSYCHOLOGY RESEARCH?

Role of CNS and Neurons

Recreational Drugs

Brain and Aggression

Hormones and Aggression

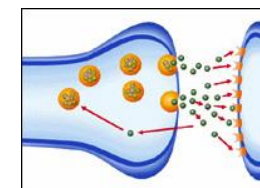

Evolution

Freud –Theory of Personality (comparison)

Raine

Brendgen

Individual Difference and Developmental
