

# CAREERS BULLETIN

NOVEMBER 8TH 2024

## Welcome to Rossett School Careers Bulletin

Now in its third year, Green Careers Week 2024 takes place from the 4th to the 9th November. The week aims to:

- Provide young people with an insight into careers that help protect the environment;
- Inspire them to get involved with green careers.

A green career can be any job, role or occupation that contributes to preserving or restoring the environment and our planet. It can be any industry, not just the ones we think of as 'green.'

Green skills are abilities, attributes, values, attitudes, knowledge, and technical skills needed to adapt services, processes and procedures to support climate change.

The Parents' Guide to Green Careers is packed with information, including:

- why your child might be interested in green careers
- how your child can get into green careers: routes after GCSE and sixth form
- what green careers look like and why there's something for everyone
- a personal viewpoint from an engineer working on climate action
