### 18SU015 Introduction to Ceramics – perfecting pinch pots

**This course is for:** Beginners

**Students should bring:** Box and plastic bags/clingfilm to transport work home.

**This course aims to:** Give students a great introduction to ceramics through learning basic handbuilding methods.

**The course will cover:** We will cover the pinch pot technique, one of the fundamental methods of making pots. Over the 5 weeks we will perfect this technique by using the pinch pots to create a variety of forms, from bowls and vases to sculptures. Work will be decorated using coloured slips and Anna will arrange collection of work from her studio in Harrogate, after they have been fired in her kiln.

**By the end of the course:** Students will have an excellent knowledge of the pinch pot technique, how to alter forms and decorating methods.

**Tutor Profile:** Anna has been teaching ceramics for 9 years in conjunction with her own practice as a professional Ceramicist. She has a 1st Class BA (Hons) in 3D Design, specialising in ceramics, from Manchester School of Art as well as a Graduate Diploma in Creative Business Development. She

has taught ceramics to all ages and backgrounds, from a group of 30 excitable Brownies to working with adults in a mental health setting, and runs monthly 1 day workshops from her studio in Harrogate. She loves being able to pass on her skills and knowledge, and watching the clay bug take hold in her students!

"A million thanks again for a great learning experience, how I wish I'd had the opportunity to learn something like this years ago!" Kay Hyde
